## Virus Invasion

William "Bill" Chesnut  
Owner of Quality Computer Service

A crawler browser plug-in PUP (Potentially Unwanted Program) is making its way around the internet and it is scary! It will slow down your machine or keep you from accessing the internet through internet browser. Some browsers have more problems than others when it comes to allowing the infection. This PUP will transmit data from your machine back to its source. **BEWARE** - If you have your checking account on your computer!

Call **QCS** right away if your computer is experiencing these symptoms. Be careful out there while surfing!

## Bob Justus, June 19, 1944 – Aug 19, 2011

Bob and I hit it off the first time we met. Me being retired Air force and he as a pilot of a F106 Delta Dart back in the day. We would discuss the 106 and military things. He was a very proud American, proud of God and Country. I was uplifted by his enthusiasm for life and the pride for his fellow Americans and his country. There is a video of Bob on our web site. Bob, always ended his emails with:

**Bless you & yours,  
God bless America**

**And only a pilot could come up with:  
Fair Skies & Tailwinds**

God bless you Bob, and may you have
